Introductory

THE PUBLISHERS take pleasure in presenting herewith the Eleventh Annual Edition of Henderson's Saskatoon Directory, this edition being the fourth published during the Great War.

This Edition embraces the area of GREATER SASKATOON, comprising the territory of the City proper, and all Suburbs, Subdivisions and environs.

The Advertising Department presents the names of corporations, firms and individuals who are making Saskatoon the great city that it is, and who are a power in the financial, industrial and commercial world of Western Canada.

The Miscellaneous Section in the front part of the volume contains up-to-date statistics and information, much of which is not to be found elsewhere in print.

The value of the street section is often unappreciated by some who desire to find a certain house on a street unfamiliar to them to the extent it should be. By application of the following example, the location of any street number can be found expeditiously: Suppose 214 Avenue S South is wanted: refer to street section Avenue S South—glance down to 214, then to the nearest intersection to 214. It will be found that this number is on the east side of the street, five houses south of 21st Street, between 21st and 20th Streets.

The Classified Directory contains a complete alphabetically arranged list of all articles manufactured and sold in Saskatoon, which forms a most efficient wholesale and retail buyer's guide.

ADVERTISING SASKATOON

The Saskatoon Directory is placed in the Directory and Public Libraries throughout the United States and Canada, where is serves the public as a valuable book of reference and the city it represents as a splendid standing advertisement, for no other publication can convey such an idea of the city, its business interests and all the various institutions and organizations. Few people realize what splendid publicity this affords the City and its industries.

The Publishers desire to thank their patrons and the general public for the courtesy extended, at all times, to their representatives, and to say that they fully appreciate the confidence which the business and professional men of Saskatoon have always shown in their publications.

City of Saskatoon

Saskatoon is situated in Township 36, Range 5, west of the Third Meridian, on the banks of the South Saskatchewan River. It is the geographical and commercial centre of Central Saskatchewan. It is served by the Canadian Northern, Canadian Pacific and Grand Trunk Pacific railways. As the site of the University and Agricultural College, Saskatoon is the educational headquarters of the Province.

In 1903 the population was 113; in 1918 it is 25,000 according to outside estimate from the returns of the recent registration cards. In 1916, since when the city has acquired a good many more people, the population was 21,054 by the conservative figures of the Government Census.

The portion of the city on east side of the river was originally known as East Saskatoon, but as the original villages grew and confusion between the post offices resulted, the name "East Saskatoon" was changed to Nutana, a word which is claimed by some to have had an Indian origin, meaning "first born," because it was the first settlement.

The name Saskatoon is derived from the Indian Cree name "Mis-sask-qua-too-mina," or "Mis-sask-a-too-mina," and sometimes contracted into "Saskatoomina." This word is the plural. The singular is secured by dropping the final "a." The name was given by the Indians to the berry which is found in such profusion in this vicinity and commonly referred to now as the "Saskatoon Berry" or "Saskatoons." According to a member of the original survey party, the Indians used to gather large quantities of these berries and walk through the camps selling them, crying what sounded to the members of the party like "Saskatoons, Saskatoons."

The city lies 216 miles north of the boundary between the United States and Canada, 140 miles from the western and 215 miles from the eastern boundary of the Province, so that its position is central. It is the only large city in the direct line between Winnipeg and Edmonton, being almost midway between the two, 450 miles northwest of Winnipeg and a little over 300 miles southeast of Edmonton.

Five bridges, the newest being a handsome arched structure of re-inforced concrete, costing upwards of $500,000, cross the river within the city limits. Three of these bridges join the central portions of the city, two of them being for vehicular and pedestrian traffic, while the third carries the Canadian Northern Railway tracks and has a footpath alongside. The remaining two are railway bridges, one carrying the Canadian Pacific and the other the Grand Trunk Pacific rails. To the east of Saskatoon, the modern city resulting from the uniting of the villages of West Saskatoon, Nutana and Riversdale and their subsequent allied growth, and about a mile away, lies the town of Sutherland, where are the C. P. R. roundhouse and car repair tracks. Sutherland is an incorporated town but is united to Saskatoon by street car tracks, as well as by rail, and this route is part of the regular city service.

The natural fertility of the surrounding district which is well settled and the unique position of Saskatoon as a distributing point are the main contributing factors to the city's prosperity and growth.

The townsite was surveyed in 1886, but the first railway did not come in until 1892. In 1899 Saskatoon consisted of a few houses on the east side of the river, while on the west side was the station house, the section foreman's residence, the Royal Northwest Mounted Police Barracks, a stone building, a hotel, and about six other houses and shacks. About this time property in what is now the central portion of the city sold for $45 for 75 feet. In 1901 Saskatoon was incorporated as a village, and in 1902 the first weekly newspaper was published bearing the title of "The Saskatoon Phoenix." In 1903 the town charter was obtained. In 1906 Saskatoon became a city, the population being estimated at 5,000.

Following the formation of the Province of Saskatchewan in 1905, the locating of the capital and the university became live public questions. It was believed at that time that, owing to its central location, Saskatoon would be chosen as the capital, but eventually a compromise was reached whereby Regina became the seat of government and the Provincial University was placed at Saskatoon.

From 1906 onwards expansion was very rapid, becoming phenominal about 1912, until today Saskatoon stands a city of handsome buildings and well paved streets, along the principal ones of which electric cars now run. In the residential sections the boulevarding system obtains, giving the streets a very attractive appearance. The broad South Saskatchewan River, which flows through the middle of the city between high banks covered with an abundance of trees, shrubbery and other natural growth, besides providing an unlimited supply of purest water, passing through a modern filtration plant, lends a pleasing aspect, eliminating the tiresome monotony usually associated with centres of population established upon the prairies.

Method of Government

The Mayor is the chief executive officer of the city. He is ex-officio a Justice of the Peace and a Commissioner of the city. There is one appointed commissioner who is a municipal expert, and the council has by bylaw delegated, subject to its legislative jurisdiction, administrative powers and duties to the commissioner. The council consists of the mayor and ten aldermen, two for each of the five wards into which the city is divided. The police force is under the control of a separate executive authority called the Board of Police Commissioners. This Board consists of the mayor, the district court judge and the permanent police magistrate. The parks, hospitals and public library, and, of course, the schools, are each controlled by their own Boards.

Not only is Saskatoon in the centre of Saskatchewan, but it is also in the centre of Western Canada. By placing a finger on the centre of any map of Western Canada one cannot avoid placing it on Saskatoon.

Saskatoon is the only city in Central Saskatchewan. There being no other large point near, the vast surrounding territory is wholly hers because she has the competitive railway facilities and distributing freight rates to control it absolutely as follows:

On carloads shipped in Saskatoon's wholesale distributing territory extends to about 48,600 square miles, stretching far into Alberta—indeed, to within 82 miles east of Edmonton—and even now embracing over two hundred points on no fewer than 2,225 miles of operating railways—a distance only 27 miles shorter than that from Montreal to Calgary, per C. P. R.

On goods manufactured locally, such as flour, Saskatoon controls a distributing area of about 70,000 square miles, within which there are at present 300 bright young towns and villages.

Saskatoon has expended very large sums of money upon her schools, varying from $118,000 to $156,000 on each building. The citizens favor municipal ownership so far as it is deemed practicable and judicious, and now control their water, light, power, street car system, sewerage and hospitals.

The splendid facilities now operating to Saskatoon, both in the form of railways and natural advantages, are more than sufficiently important to win her distinction as a great national commercial centre. The three main lines of the three big Canadian railway companies are merely the framework upon which an intricate interthreading of branch lines is being woven as circumstances permit.

COLLEGIATE INSTITUTE

Victoria Avenue corner 11th Street, Nutana

The Collegiate building is one of the finest and most up-to-date school buildings in Western Canada. Situated on the high south bank of the Saskatchewan River, it commands an excellent view of the city, the river and the surrounding country.

The building covers a ground space of 80 feet by 150 feet. It comprises a basement and three storeys. The basement contains a large gymnasium, 70 feet by 33 feet, with 15 foot ceiling, boiler and fuel rooms, lavatories, and rooms for manual training work and the teaching of domestic science. On the first floor are seven class rooms, library, reading room, teachers' room, and principal's office. On the second floor are six class rooms, three science rooms, and two lavatories. The third floor contains a large assembly hall, with a seating capacity of 500 and a stage 18 by 24 feet; also two dressing rooms, and four rooms which may be used for store rooms or for special classes.

University of Saskatchewan

The University is situated on the east side of the south branch of the Saskatchewan river. Its site comprises 1,333 acres. About 300 acres, with frontage of over half a mile on the river, have been set apart for a campus. A portion of the quarter section south of the campus is devoted to plot work, the land being virgin prairie.

The College building is about 220 feet long and 52 feet wide with wings of about 111 feet in length and 30 in width. At the rear is a large hall capable of seating between 500 and 600 people. This building will be used for teaching purposes in Arts and Agriculture. It is located in a position convenient to the Agricultural, Engineering, Horticultural and Dairy buildings, the Stock Pavilion and Farm buildings so that in time it may be devoted exclusively to the College of Agriculture. Near it are placed the residences for students.

COLLEGE OF AGRICULTURE

The College of Agriculture is a part of the University and stands in the same relation to the University as does the College of Arts and Science. It has a number of buildings planned and equipped for carrying on its particular work and a staff of its own for the purpose of giving instruction especially in the technical subjects and elementary work in English, Mathematics and Sciences. Its laboratories and equipment are under certain limitations and restrictions, available to students in the other colleges of the University for the purpose of scientific research.

The aim of the College is to give the students under its care a good, practical training in the different technical subjects that bear upon the various phases of agriculture, such as animal husbandry, field husbandry, farm mechanics, farm engineering, dairying, horticulture, tree planting and others; to give them a good, liberal education in various other branches such as will enable them to adapt themselves readily, without great loss of time and energy, to new and varied conditions, and to fit them for their duties as good citizens.

EMMANUEL COLLEGE

In Affiliation with the University of Saskatchewan

The College is governed by a Board, composed of Ex-Officio and Elected Members of the Synod of the Diocese of Saskatchewan. Its appointment is regulated by Canon, and the elected members retire by rotation. They control all matters affecting the welfare of the College, and report their proceedings to the Synod annually. The Educational Committee is made up of the Faculty, together with the Bishop and two clerical members of the Board of Governors.

The College provides: (1) a pass course leading to the Testamur; (2) a course leading to the Licentiate in Theology, and (3) a course leading to the degree of Batchelor of Theology.

THE OBJECTS OF THE ASSOCIATION

The Association of the American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are:

First. The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employees

Second. To provide protection to the public against fraudulent advertising schemes which operate under the name of Directories, and to drive unprincipled promoters of the same out of business.

Third. To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth. For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.

$100.00 REWARD will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing, collecting or canvassing for any fraudulent or fake Directory.

The words "street" and "avenue" are always understood

System of Street Names and Numbering

Streets run east and west, odd numbers on south side.

Avenue runs north and south, odd numbers on west side.

The townsite has been laid out allowing 18 streets in Nutana, south of the Saskatchewan River, Eighth to Eighteenth Streets being within the Corporation limits, while First Street to Seventh Street lie south of the southern city limits. First Street to Eighteenth Street are in Nutana, Nineteenth Street being the first street on the west side of the River. East of the C. N. R. tracks and west of the river streets are numbered from Nineteenth to Twenty-sixth, west of the C. N. R. tracks in Riverdale streets number north from Eleventh to Thirty-third, the northern city limits.

With the Avenues, the C. N. R. tracks are the dividing line. Avenues First, Second, Third, Fourth and Fifth running north and south and paralleling the C. N. R. tracks to the east are arranged numerically from the C. N. R. to the Saskatchewan River. West of the C. N. R. Avenue are arranged alphabetically from Avenue A to Avenue P, the western city limits.

In Nutana the street information is taken east from the Saskatchewan River to eastern city limits. On the Avenues north from Eighth Street the southern city limits. The system of house numbering adopted by various cities throughout the continent known as the Decimal or Philadelphia system, viz., an even hundred numbers are allotted to each block, the principal advantage of the system is that the number indicates how many blocks distant it is from any given point on a street or avenue.

On the Avenues, which run north and south, a number is allotted for every 12 feet, and on streets running east and west, a number is allotted for every 15 feet.

Note—The arrangement in Street and Avenue Directory is in the following order: Alphabetical Streets and Avenues; Avenues A to Z; Numerical Avenues and Streets.

The arrangement by directions is East, West, South and North.

Where the odd and even numbers on an Avenue or Street are separated, the east side (even numbers) on Avenues will appear first and the south side (odd numbers) will appear first on Streets.

BEAUTIFUL
TYNDALL MARBLE

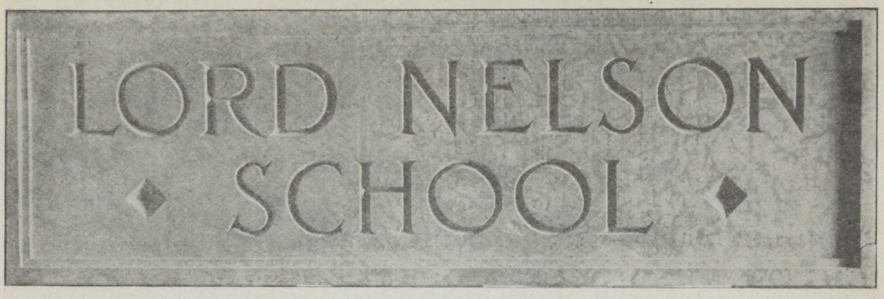

Photo of inscription Panel of Winnipeg's newest School cut in one solid block of Tyndall Marble

The Quarries producing this magnificent Stone were opened in 1917. The most Modern Plant in Canada was installed. Any demand can be promptly supplied

Large Solid

Dimension and Mill Blocks

All the highest quality with that beautiful grain

Rubble

Smaller Blocks for Houses and Foundations

Broken Stone

Crushed and Screened to any Specified Size

For Your New Residence—Why not have it built of TYNDALL MARBLE. There is not much additional cost

Ask us about it

Give your Order to your own Contractor. We will Supply him with the material. Call us up and talk it over.

Ground Lime Stone for

Fertilizer

The finest product known for sour or heavy land

Independent Quarries Limited

Office: 408 McArthur Building **Winnipeg, Man.**

Note Color of Stone after 35 years exposure to Winnipeg climate. Compare this with any imported stone

For any Class of Building
The Best Stone in the World is

TYNDALL MARBLE

The color improves with age and weather, note the color in above photo, after 35 years. Imported stone grows dark and dirty in this climate.

THE OBJECTS OF THE ASSOCIATION

The Association of the American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are:

First. The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employees

Second. To provide protection to the public against fraudulent advertising schemes which operate under the name of Directories, and to drive unprincipled promoters of the same out of business.

Third. To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth. For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.

$100.00 REWARD will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing, collecting or canvassing for any fraudulent or fake Directory.
